SAFETY IS A SHARED RESPONSIBILITY

🚗 When you’re driving:
- Yield to people in crosswalks. (GS § 20-173)
- Always look first for pedestrians and bicyclists before turning, backing up, and when driving at night.
- Pass bicyclists only when it is safe to do so and be sure to give them plenty of room. (GS § 20-149)
- Be prepared for bicyclists to take the whole lane—it’s their right if they need it. (GS § 20-146)

🚶‍♂️ When you’re walking:
- Look for cars in all directions—including those turning left or right or backing up—before crossing the street or parking lot.
- Obey all pedestrian traffic signals. (GS § 20-172)
- At night, walk in well-lit areas, carry a flashlight, or wear something reflective to be more visible.
- Cross the street where you have the best view of traffic. At bus stops, cross behind the bus or at the nearest crosswalk.
- Always walk on the sidewalk; if there is no sidewalk, walk facing traffic and as far from the roadway as you can. (GS § 20-174)

🚴‍♂️ When you’re bicycling:
- Wear a helmet. It could save your life. (GS § 20-171.7)
- Obey all traffic signals and stop at “Stop” signs and red lights. (GS § 20-158)
- Ride in the direction of traffic and as far to the right as practicable. (GS § 20-146)
- Use front and rear lights and reflectors at night and be as visible as possible. (GS § 20-129 (e))
- Use hand signals to indicate when turning. (GS § 20-154)
Did you know that under North Carolina state law, drivers must yield to pedestrians in crosswalks—even if the crosswalk is not marked? (GS § 20-173)

What’s a crosswalk?

MARKED CROSSWALKS
Crosswalks may be marked, either with two parallel white lines or a series of white blocks running across the street (or road).

MID-BLOCK CROSSWALK
These marked crosswalks are located in the middle of a block, not at an intersection.

UNMARKED CROSSWALKS
These crosswalks occur whenever a sidewalk ends at an intersection and continues on the other side. There is an implied crosswalk across the intersection.
